

MANUFACTURING & QUALITY DATA MANAGEMENT FOR VIRTUAL MANUFACTURING NETWORK

DATASHEET

BIOVIA Discoverant is a collaborative data access and reporting application that eliminates geography as a factor in the working relationship among a Sponsor's headquarters, its manufacturing operations and its contract manufacturers (CMOs).

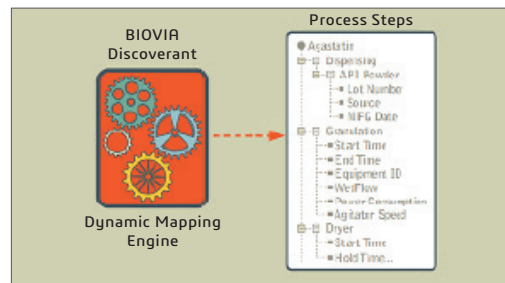

AGGREGATION/CONTEXTUALIZATION

BIOVIA Discoverant maps data-type and batch relationships from paper batch records and/or systems such as BIOVIA LIMS, SCADA, BIOVIA EBR/MES, ERP – throughout the manufacturing enterprise.

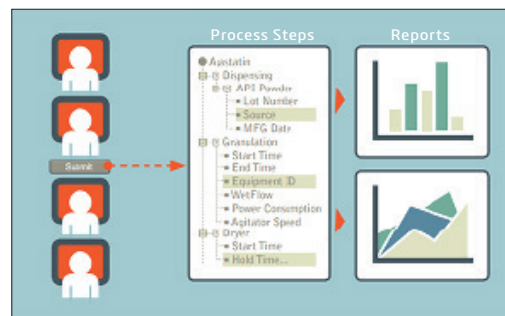

ACCESS

BIOVIA Discoverant provides sponsors and CMOs real-time, on-demand access to all production data in a point-and-click environment allowing better understanding and control of variability sources.

ANALYTICS AND REPORTING

BIOVIA Discoverant provides powerful analytics and reporting tools that allow all participants in the manufacturing enterprise to perform trending, cause-and-effect, and quality and yield improvement analyses.

BIOVIA Discoverant is a component of the **BIOVIA Process Management and Compliance Suite**, a comprehensive software offering for capturing, managing and analyzing development and process data in new product development and commercial manufacturing and quality operations.

Our 3DEXPERIENCE Platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the 3DEXPERIENCE Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 170,000 customers of all sizes in all industries in more than 140 countries. For more information, visit www.3ds.com.
